Itability of Postmasters

I he law office of the Postoffice Department has given an opinion to the effect that a postmaster who uses, or converts to his own use postal funds in his office although not required to deposit until the end of the current month, or quartor, is guilty of embezzlement. It has been sulppuse by many postmasters that under set 1249 of the postal laws and regulations that there was no ombezzlement by a postmaster until he wilfully neglected to make the postal size as a postmaster who are spostal funds to ending to make their good when the time for depositing arrives is liable to prosecution and pausisment.

The scenet of successful canning of fruits and vegetables, is an open one. Certain conditions being insured, fallure is out of the question. The fruits (and vegetables) must be just ripe, freshly gathered, and perfect of their kind. All germs in the cans, received by contact with the air, or otherwise, must be destroyed by heat, in the form of holling water, and all gerins of microscopic animal or vegetable life by the fruits-germs of fungus growth or of fermentation-must also be destroyed.

Than the air must be effectually excluded from the cans, so that all germs will be kept out. The surest way of scenning all these conditions is to put the fruit into the 7 ms, and after partially scaling them, put the cans into cold water, raise this to it bolling point, and keep it there all the contents are sufficiently cooked, then remove from the water and seal tightly, and turn the came on and If they lenk, they are liable to ferment; if they do not leak no al: in enter to carry the souds of fermenta-

KING'S EVIL

Was the name formerly given to Scretula because of a superstition that it could be cured by a king's touch. The world is witer now, and knows that SCROFULA

can only be cured by a thorough purifica-tion of the blood. If this is neglected, the disease perpetuates is taint through goveration after generation. Among its earlier symptomitic developments are Eczoma, Cotadocous Eruptional Tu-mors, Bolla, Carbuncles, Erystpolas, Furniont Ulcors, Norvous and Phy-sical Collapse, etc. If allowed to con-taints, Richard and Liver Diseases, Tubercular Consumption, and art-ous other dangerous or fatat maladies, are produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It less discretial an alterative that it craditates from the yetem Hereditary Scrotillal and the kindred poisons of contestous discases and mercury. At the same time it enriches and vitalizes the blood restoring healthful action to the vital organism and rejuvenating the entire system. This great
